

The Birchwood

London's new country retreat.

Fusion heralds a new era of elegance and exclusivity in Ealing, W5, with the creation of The Birchwood, a bespoke development of six beautiful apartments enjoying an elevated position in Park View Road. When it launches in November this year it will make the capital's finest and newest country retreat.

Conceived and crafted by boutique multi-award winning design house, Fusion Residential, the design brief for the project was pioneering and innovative. This building of majestic proportions will manifest a masterful blend of design, technology and sophistication – homes fit for a prince in this, the Queens of London suburbs.

It has been created by a collaboration of the best craftsmen, designers and artisans, using the most beautiful colour palettes, textures, materials and objets d'art sourced from around the globe.

Boasting six sumptuous three- and four-bedroom concierge-serviced apartments, The Birchwood, which gets its name from the birch orchard that will be planted around the site, will redefine perceptions of aesthetic achievement and push the boundaries in terms of exquisite finish, attention to detail, specification and classical styling.

The triple-aspect lateral apartments boast expansive, wrap-around terraces while the uber-luxurious penthouse covers the entire top floor and affords panoramic views towards the Shard and beyond.

Meanwhile, the four-bedroom garden apartment of circa 2,500sq ft will feature a marvellous courtyard garden.

From the secure and gated underground parking with heated ramp to the bespoke lift, and the concierge-managed cold store for grocery deliveries, every wish has been granted, every desire attended to.

Ealing is a beautiful area with more green flag parks than any other London borough, yet it is incredibly well connected with London Heathrow and Denham private airfield just 20 minutes away, while the A40 is less than two miles away.

Prices of the spectacular apartments in The Birchwood varies, and are subjected to private negotiations.
